

Selecting the right auger for your compact excavator can be tricky; you'll need to consider not only the hydraulic flow, but the pressure too; soil conditions and hole size will play a role as well. CEA has the expertise to help you select the correct auger drive to fit your needs. The full auger line available is sure to provide correct mounting pins, hydraulic-powered auger drive unit, auger drilling bit and specialized wear parts.

The planetary gear reduction drive units are designed for heavy-duty use in commercial and industrial applications. Features high torque and heat treated drive shafts. Mounts, hoses, hydraulic couplers, and bits are sold separately.
