

# Standard Auger Bits

Bits are available in sizes ranging from 4” to 36” including tree and shrub auger bits and rock and frost bits. The tree and shrub auger bit is designed with smaller diameter auger flighting at the bottom to leave space for root balls, fertilizer or mulch. Rock auger bits have conical (also called “bullet”) teeth to cut through the toughest ground and are available with standard, “fishtail” or conical center points. Other auger accessories include auger extensions and auger adapters for round to hex, hex to round and 2” round.

Standard auger bits feature a reinforced fabricated boring head and double wrapped flighting. Heat treated teeth and “fishtail” center point. They are approximately 50” in overall length and available for round or hex drive augers.

## SPECIFICATIONS

Model	Weight (lbs/kg)	No. of Teeth	Tooth Style
SQ4	49.0	0	Standard
SQ6	58.0	2	Standard
SQ9	89.0	4	Standard
SQ12	110.0	4	Standard
SQ15	126.0	6	Standard
SQ18	163.0	6	Standard
SQ20	180.0	7	Standard
SQ24	200.0	9	Standard
SQ30	260.0	11	Standard
SQ36	340.0	13	Standard
SQ42	437.0	16	Standard
SQ48	480.0	18	Standard
