

These PTO-powered auger drives feature heavy-duty tubular steel yoke and booms, with 2" diameter output shafts. The A-12 includes a positioning handle. All models have 3-position boom adjustment, shear-bolt protection and shielded drivelines. The tough gearboxes on these units feature tapered roller bearings and spring-loaded seals. Augers from 6" to 30" available. The maximum tractor PTO horse power is 50. Bits sold separately.
