

Landscape Rake

From grading and removing rocks to pulverizing soil and preparing a seedbed, CEAttachments has the rake attachment you need to make your compact utility tractor a valuable lawn and landscape tool.

Perfect for grading, leveling and spreading soil, and removing rocks and debris. Also used for breaking up clumps, spreading gravel and smoothing loose materials on sports fields and arenas. Heavy frame construction and individually replaceable 5/16" x 1" x 16" tines.
