

Silt Fence Installer

This unique attachment allows installation of silt fence effectively and effortlessly by a single operator. The silt fence installer has a single-fold design for ease of material loading. Unique pivoting design allows installation around tight corners and coulter cuts through grass or sod for easy installation of silt. One machine size handles 36", 42" and 48" fabric rolls. Recommended to use with a minimum of 35 HP tractor with 4-wheel drive, or a 60 HP tractor with 2-wheel drive. 3-Point models include storage stands (shown).

SPECIFICATIONS

Model	Weight (lbs/kg)	Fabric Roll Widths (in/mm)	Pivot (degrees)	Digging Depth (in/mm)	Offset (in/mm)
