

Built to handle the toughest stumps with ease. These Stump Grinders are ideal for landscapers, landowners and arborists. The 3/4" thick cutting wheel is equipped with carbide-steel teeth and is driven by a heavy-duty oil bath gear box. The lift and swing cylinders are controlled from the tractor seat. The 55-degree swing path can handle stumps 45" in diameter and 24" tall without repositioning the tractor. Hoses are included, couplers are not included.

SPECIFICATIONS

Model	Weight (lbs/kg)	HP Req.	Max. Depth (in/mm)	Dia. (in/mm)	Speed (rpm)
