## New EDGE Grader and Laser System

Shown with optional end plates.

New EDGE Grader Blade is now smoother than ever featuring an in-cab control box with a new proportional current valve.

This new feature allows you to hydraulically control the movement of oil to gradually enter the cylinder resulting in consistent, steady adjustments made to blade height, angle and tilt.

Combine the new EDGE Grader with new laser system components for a perfect grade every time. Simple "on-grade" and "off-grade" indicators on receivers specify exact adjustments to make with one simple cable attachment.

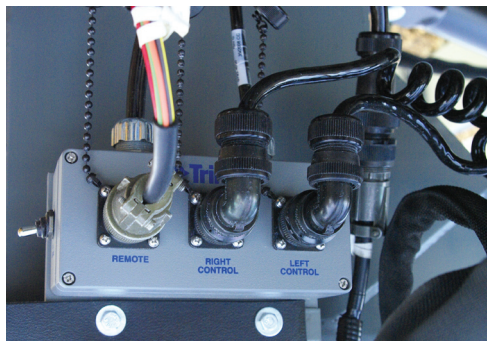

### Features:

- In-cab grader control box with proportional current valve for smooth adjustments to blade height, angle and tilt
- Simple, precise control with laser system saves material, labor and time
- High accuracy +/-10% X axis grade range, 0.5% to +25% Y axis grade range, up to 3,000 ft. diameter
- Simple assembly and operation for perfect grade

502413 Laser Transmitter

503568 Laser Receiver

502415 Laser Install Kit (Junction Box Assembly)

New Part Number	Description	Replaces Part Number	Retail Price
503655	8' Grader Blade with proportional current valve	503233	\$8,998.00
503235	Grader Laser Pole Kit (includes 2 poles and hardware)	-	\$154.00
502415	Trimble Laser Install Kit for Laser Receiver (junction box assembly)	-	\$1,093.00
503568	Trimble Laser Receiver GCR-2SM (2 required) for 503655 Grader with proportional current valve	-	\$4,105.00
502413	Trimble Laser Transmitter GL720	-	\$5,819.00
503234	Optional End Plate Kit	-	\$274.00
