

Rock, Conical | Auger Bits

Rock auger bits feature a reinforced fabricated boring head, double wrapped flighting, conical carbide teeth, and a conical “bullet-tooth” center point. These bits are 50” in overall length not intended for use in concrete or asphalt applications.

SPECIFICATIONS

Model	Weight	No. of Teeth	Tooth Style
RSQ9	90	6	Conical
RSQ12	110	6	
RSQ15	150	7	
RSQ18	168	8	
RSQ24	220	12	
RSQ30	285	15
