

Bucket Accessories, Bolt-on Edges

The Serrated Bolt-on Edge is designed to help penetrate hard, compacted surfaces easier than the flat edge of a bucket.

The heat-treated, 3/4" Boron steel serrated edge also extends the life of your bucket by providing a tough wear edge.

The 8" Serrated Edge is available in various width sizes to fit buckets from 60" (1524 mm) to 96" (2438 mm), and all Serrated Bolt-on Edges come complete with hardware.

- ⊙ **HEAT-TREATED 3/4" THICK BORON STEEL**
- ⊙ **HELPS PENETRATE HARD, COMPACTED SURFACES BETTER THAN A FLAT BUCKET EDGE**
- ⊙ **EXTENDS THE LIFE OF THE BUCKET BY PROVIDING A TOUGH 8" WEAR EDGE**
- ⊙ **AVAILABLE IN VARIOUS SIZES TO FIT BUCKETS FROM 60" TO 96"**
