

Pulverize concrete and rock quickly and easily into load-ready debris. The EDGE Hydraulic Breaker is tough enough to break through the toughest materials. Use it for demolition and construction projects; it is also ideal for municipalities. Breaking force is generated by the hydraulic flow and pressure of the skid steer loader and a nitrogen accumulator.

This breaker comes standard withmoil point tool, universal skid steer mount, hose saver kit and flat-faced couplers.

- ⊙ **NO BACK HEAD CHARGING REQUIRED**
- ⊙ **SIDE BOLT DESIGN ALLOWS LESS THROUGH BOLT FAILURE**
- ⊙ **EASY TO INSTALL WORKING STEEL**
