

# Hopper | Brooms

Broom attachments are selected by the material to be removed and the surface on which the broom is used. CEA has the selection of brooms you need to complete the job right - and FAST!

This bi-directional collection broom allows you to sweep in forward and reverse, and gives excellent performance in milling, material pickup, road maintenance and job-site cleanup. Front and side steps allow easy access to and from the cab. The front bumper and no caster wheels allow you to get up close to objects, and the shroud protects from flying debris. The bolt-on motor and quick-change broom sections allow for easy replacement.

This is a cost-effective investment for contractors and rental houses. The hopper broom is a single-motor broom and is available in widths ranging from 60" (1524 mm) to 84" (2133 mm). Comes complete with hoses and couplers to fit most skid steer loaders, and a bolt-on cutting edge.

- ⊙ **BI-DIRECTIONAL BROOM OPERATES IN FORWARD OR REVERSE**
- ⊙ **IDEAL FOR MILLING, MATERIAL PICKUP, PARKING LOTS AND ROAD MAINTENANCE**
- ⊙ **RUBBER SKIRT KEEPS DIRT AND DEBRIS CONTAINED**
