

Concrete Placing Bucket

These attachments allow your skid steer loader to complete big concrete projects in small areas.

This skid steer attachment is designed to accurately, quickly and neatly carry and place concrete in tight areas or locations that cannot support a cement truck. The concrete placement bucket is ideal for pouring backyard patios, footings or into formed columns or walls. Sizes available are 1/2 and 3/4 cubic yard capacities. Standard features include a hydraulic gate control and 30" (762 mm) chute extension. Includes hoses and couplers.

- ⊙ **CARRY AND PLACE CONCRETE WHERE CEMENT TRUCKS CANNOT GO**
- ⊙ **IDEAL FOR PATIOS, POOLS AND FORMS**
- ⊙ **POWDER COAT FINISH FOR EASY CLEANING**
- ⊙ **DISPENSING DOOR ALLOWS ACCURATE PLACEMENT WITHOUT MESS**
