

Skeleton Rock Buckets

Though they may be designed for different applications, speciality buckets from CEA have at least three things in common: they're tough, attach easily and allow your compact equipment to take advantage of its power and mobility for a very particular job.

Designed for picking up stones and large, awkward debris, the skeleton rock bucket is a "must have" for skid steer operators in the agricultural, commercial and landscaping industries. The grated bottom allows dirt to fall through.

- ⊙ **PICK UP STONES WHILE ALLOWING DIRT TO FALL THROUGH OPEN BOTTOM**
- ⊙ **BACK-DRAGGING PREPARES AN EXCELLENT SEED BED**
- ⊙ **ALSO AVAILABLE WITH GRAPPLE**

SPECIFICATIONS

Model	Weight (lbs/kg)	Overall Width (in/mm)	Tine Spacing (in/mm)	No. of Tines	Height (in/mm)	Depth (in/mm)
