

Skeleton Rock Grapple

Handling brush, awkward debris, logs and more is made easy with the right grapple. The experts at CEA can help you to select the correct grapple based on your skid steer loader and your application.

The Skeleton Rock Grapple is designed to scrape with loader arms against boom stops. It's see-through design allows for excellent visibility, and the design offers complete protection of the hose routing. Features bushings at all pivot locations and fully gusseted tine tips. This attachment is available in widths from 72" (1829 mm) to 84" (2083 mm). Includes hoses and couplers.

- ⊙ **BUSHINGS AT ALL PIVOT LOCATIONS**
- ⊙ **FULLY GUSSETED TINE TIPS**
- ⊙ **SEE-THROUGH DESIGN FOR EXCELLENT VISIBILITY**
