

# Post Pounder and Puller

The EDGE Post Pounder and Puller is the one essential tool needed for cost effective fence installation and demolition all in one.

This one-person operation can drive fence posts as wide as 10 inches and up to 10 feet long into the ground in minutes. No need to ever touch the post by hand.

Simply use the attachment to pick up the post, position it using the 12" plumb chain and drive it into the ground, with finished posts as low as 18" above ground. Not recommended for use with decorative posts or cyclone pipe posts.

*Shown with optional T-Post Adapter kit.*

This cost-effective tool can also be used to remove wooden or metal fence posts quickly and easily. Ideal for use in agricultural applications or for property line fences with solid steel or wood posts.

Recommended minimum skid steer lift capacity of 1650 lbs. Optional T-Post adapter kit assists with pounding and pulling T-Posts. Comes complete with hoses and couplers.
