

# Manure Scrapers

An essential tool in agricultural applications, these scrapers are great for clean up work, but they have other applications like flood clean up as well.

This attachment is an excellent tool for cleanup in free-stall barns. The backdrag allows it to efficiently clean out corners and pull material away from walls. Features reversible 1.5" thick x 10" high rubber compound edges.

- ⊙ Deeply angled design gathers and holds material
- ⊙ One piece rubber eliminates spillage
- ⊙ Pullback edge comes standard for cleanout of corners/edges

## SPECIFICATIONS

Model	Weight (lbs/kg)	Overall Width (in/mm)	Overall Height (in/mm)	Depth (in/mm)
