

Salt Spreader

Rear Hitch Mount

The electrically powered spreader is designed to handle most dry, free flowing granular materials, including salt, seed and fertilizer.

Ideal for parking lots, driveways and roads.

This unit is engineered with minimal moving parts to reduce maintenance costs. There is an optional gate assembly to control the flow of light materials to the discharge assembly. It features a heavy duty 12 volt DC motor in a weather tight enclosure, and a low profile design for operator visibility.

- ⊙ **MULTI-FUNCTIONAL ATTACHMENT FOR SALT, SEED, FERTILIZER**
- ⊙ **LOW-PROFILE DESIGN FOR EXCELLENT OPERATOR VISIBILITY**
- ⊙ **MINIMAL MOVING PARTS FOR REDUCED MAINTENANCE**
