

Hi-Reach Clipper Tree Tools

Landscape professionals and nurserymen can transform their compact equipment into useful and profitable tools for tree and shrubbery planting, transplanting and removal.

It's 6' reach and 100 degree cutting head rotation means you'll keep clear of brush and thorns when using this tree shear! An in-cab electronic control box rotates the shear head while the powerful jaws of the EDGE Hi-Reach Clipper makes a smooth cut on hardwoods up to 9" (229 mm) in diameter, even at ground level. It's long reach and standard power tilt systems allow easy access for removal of trees, branches and brush from overrun pastures, fields and fence rows. Comes complete with hoses and flat face couplers.
