

Ideal for clearing fence lines and other hard-to-reach areas, the EDGE Tree Shear is necessary to forestry, landscaping and agricultural applications.

Featuring adjustable, high-tensile steel blades, the EDGE Tree Shear will clip hardwoods up to 10" (37 mm) diameter in one snip.

The EDGE Tree Shears feature blades made of AR400 steel, a low profile design for excellent visibility, full-length bushings in the jaws and cross-cut "grease galleys" in the hinge pins to ensure a long, trouble-free use.
