

Covering 60' (18.3 m) of open trench in 60 seconds is now possible with the EDGE Trench Filler. It eliminates tearing of the turf because the skid steer can straddle the trench and cover it in one pass. Available in right offset, left offset or centered models. The trench filler is a necessary tool for large backfilling jobs. Complete with mount, hoses and flat-faced couplers.

- ⊙ **BACKFILL TRENCHES AS FAST AS 60' PER MINUTE**
- ⊙ **REDUCE TEARING OF TURF WHILE SAVING TIME**
- ⊙ **TRIPLE FLIGHTED AUGER QUICKLY MOVES MATERIALS**
