

Utility Fork

Though they may be designed for different applications, speciality buckets from CEA have at least three things in common: they're tough, attach easily and allow your compact equipment to take advantage of its power and mobility for a very particular job.

Utility Fork buckets are extremely efficient in moving loose items such as hay, manure, branches and limbs. Ideal uses include landscaping and agricultural applications. The design of the unit allows for good visibility of the load as well as allowing the fork to get close to fences or sides of stalls or buildings. Available in sizes from 60" (1524 mm) to 78" (1981 mm).

- ⊙ **EXCELLENT FOR MANURE, HAY OR OTHER LIGHT MATERIALS**
- ⊙ **AVAILABLE ALSO WITH GRAPPLE**

SPECIFICATIONS

Model	Weight (lbs/kg)	Overall Width (in/mm)	Height (in/mm)	Depth (in/mm)	Tine Spacing (in/mm)	Tine Dia./Width (in/mm)
