

# Utility Fork with Grapple

Though they may be designed for different applications, speciality buckets from CEA have at least three things in common: they're tough, attach easily and allow your compact equipment to take advantage of its power and mobility for a very particular job.

The utility fork with grapple bucket has optimal holding ability for hard-to-handle items such as manure, loose hay, bedding and other materials. Available in sizes from 60" (1524 mm) to 78" (1981 mm).

- ⊙ **GRAPPLE PRODUCES A TIGHT GRIP FOR HARD-TO-HANDLE ITEMS**
- ⊙ **IDEAL IN LANDSCAPING AND AGRICULTURAL APPLICATIONS**
